TRENCHLESS

JT30 ALL TERRAIN HORIZONTAL DIRECTIONAL DRILL

2

Hinged main and rear hoods allow easy access to all service points in the engine and mud pump.

1

Dual independent rear stabilizers are easy to set up and enhance stability on uneven or rough terrain.

3

Among the quietest drills in its class, for less environmental impact, less disruption in urban areas and greater operator comfort.

4

Open-top vise wrenches are angled toward the operator for an excellent view of the tool joint when making up and breaking out pipe.

6

160-gross-hp (119-kW), Tier 4 engine is the most powerful in its class; full power to all machine functions greatly enhances productivity.

5

Patented All Terrain technology has the industry's most advanced inner-rod design, proven to increase production in hard rock and difficult terrain.

You asked for a drill that tackles the toughest conditions, from solid rock to cobble and hard dirt. You wanted a compact design to operate in the tightest spots. You needed a patented, inner-rod design to save you time, and a mechanical drive to save you money on drilling fluid and transporting water. We delivered it all, and much more, with the Ditch Witch® JT30 All Terrain Horizontal Directional Drill.

WE'RE IN THIS TOGETHER.

JT30 ALL TERRAIN HORIZONTAL DIRECTIONAL DRILL

1 Exclusive assisted makeup and breakout feature saves wear on pipe threads and reduces operator fatigue.

2 Add-a-pipe feature places individual pipes into loading system without lifting pipe into the top of the pipe box

3 Field-proven, heavy-duty rack and pinion thrust drive; welded-on double rack offers minimum maintenance and maximum reliability.

4 Optional wireless remote ground drive increases flexibility when moving the rig and allows fine-tuning of bore path placement.

6 SaverLok® System provides the tightest connection and best protection against wear and tear on the drill pipe and drive system; easy to install and replace, requiring no special tools.

5 Exclusive, dual-pivot drill frame allows steep entry angles without raising tracks off the ground—no need to readjust the machine.

7 Heavy-duty anchor system secures machine in difficult terrain so you can push/pull with full machine thrust.

DON'T LET A LITTLE THING LIKE ROCK SLOW YOU DOWN.

A comfortable operator is a more productive operator, which is why we've equipped the JT30 All Terrain Horizontal Directional Drill operator's station with a cutting-edge design. It features:

- Open-top vise wrenches are angled toward the operator for an excellent view of the tool joint when making up and breaking out pipe.
- Industry-exclusive, double-pivot drill frame allows steep entry angles without raising the tracks off the ground; enhances operator comfort because operator's station stays level.
- Optional cab features climate-controlled heat and air, for greater operator comfort and productivity.
- Operator's station features intuitive joystick that controls all drilling functions, ergonomic seat, color LCD engine display, and an excellent view of all drill functions.

THE DITCH WITCH® HDD SYSTEM INCLUDES:

HDD TOOLING

For your directional drill, we offer a complete line of genuine Ditch Witch drill bits, HD backreamers, drill pipe, and beacon housings, the most reliable and durable in the horizontal directional drilling industry.

MUD MIXERS

Ditch Witch fluid-management systems include the innovative FM13V, a fluid-mixing system that features a pump that lubricates itself during mixing and works so efficiently that it delivers 20 percent more fluid than other models.

VACUUM EXCAVATORS

Ditch Witch vacuum excavators are designed for a tremendous range of soft-excitation and cleanup tasks, including all manner of non-hazardous spills in and around the directional drilling jobsite. They're the most powerful, efficient and quiet vac systems on the market.
