RC6D BRUSH CHIPPER

This compact, 6-inch capacity chipper is built to commercial grade standards ensuring long service life in the rental industry and professional tree care and landscape applications. The RC6D comes equipped with a 25 hp or 35 hp gasoline engine and Rayco's Versa-Feed automatic feed control. Controls are simple and easy to operate. The cutting disc is oriented at a right-angle, allowing the RC6D to chip a wide variety of materials without plugging. Discharge chute rotates a full 360 degrees. Large wheels and tires together with wide stance and Torflex axle ensure smooth towing characteristics. LED highway lighting resists vibration and is easily seen in bright sunlight.

RC1220G BRUSH CHIPPER

The RC1220G is Rayco's newest 12-inch capacity chipper. It features a powerful feed system, 89 hp GM gasoline engine, and X-Charge discharge system. A planetary drive motor powers the feed wheel for years of dependable service with very little maintenance. The throat opening is 20-inch wide all the way through to the drum, eliminating neck-downs behind the feed wheel. The feed wheel itself is 20-inch in diameter, allowing it to climb over limbs and logs easier than competitors' smaller feed wheels. Drum engagement comes via a reliable belt-tensioning PTO. Drive belts can be accessed easily, without tools to save maintenance time. The RC1220G offers performance and labor saving features in a package that can fit almost any budget.

RC1220 BRUSH CHIPPER

The RC1220 delivers power and productivity the professional user demands. The high performance 12-inch capacity chipper is powered by Kubota diesel engines in 66.8 hp or 99.2 hp* and features Rayco's Versa-Feed infeed control. The unique X-Charge discharge system delivers more air velocity for better chip throwing. Designed to easily feed stubborn material, the RC1220's feed wheel measures 20-inches in diameter with a 12-inch x 20-inch wide infeed opening. The planetary feed wheel drive motor is virtually maintenance free. Feed wheel lift and crush handles are located on both sides. Other features include a rugged frame built from 2 x 6-inch box tubing and a lockable engine enclosure.

RC1522G BRUSH CHIPPER

The 15" capacity RC1522G chipper is an economical solution for daily chipping needs, offering an excellent combination of chip-ping power, large feed opening, and easy maintenance. At the heart of the machine is a 130 hp gasoline engine powering a 30-inch diameter x 22-inch wide, 4-knife chipper drum. The feed system utilizes a 20-inch diameter feed wheel with planetary drive motor to pull in stubborn brush and limbs. The chipper's throat is a full 15-inches high x 22-inches wide straight through to the drum, with no neck-downs behind the feed wheel. Rayco's exclusive X-Charge discharge system utilizes an outboard fan system provide extra discharge velocity and reduce plugging. The clutchless PTO drive eliminates traditional clutches and reduces maintenance, while an easy-open belt guard allows belt access without tools.

RC1824 BRUSH CHIPPER

The RC1824 chipper was designed with a powerful feed system to minimize trimming and make feeding difficult material easier for the operator. The top feed wheel is 24-inches in diameter to easily climb over limbs and logs and powered by a planetary drive motor that's nearly maintenance free. The chipper throat is 24-inches with no neck down behind the feed wheel. Power is supplied by a Cummins 160 hp diesel engine* and Rayco's Versa-Feed automatic feed control ensures optimum performance. The 4-knife drum measures 38-inch diameter x 24-inch wide to chip smoothly and allow more width than the competition for chipping crooked material and/or multiple pieces. The RC1824 is available with a host of options to suit your specific needs.
